## DETAILED ACTION

### *Allowable Subject Matter*

5. Claims 8-10 are allowed.

The following is an examiner's statement of reasons for allowance:

In regards to independent claim 8, the prior art of record fails to anticipate or rendered obvious the combined elements/steps of, "sending a message to the VOD server, the message requesting playback of the promotion" and "receiving, from the VOD server, an indication of a VOD channel number on which the indicated promotion will be played" and "the message including an identifier for the promotion to be returned to the head end message server after the promotion is played back at the STB".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The examiner further notes that Wilkins fails to teach a VOD server for receiving and sending messages and indications specifying the channel number of the promotion and that demographic/psychographic information encoder 12 in Figure 1B provides this information to the channel selection decoder 100 (see Column 9, Lines 31-33). Note that VTR 51 or VTR 52 along with the selection profile vertical interval encoder 51 and 52, respectively, only teach local alternative commercial to transmit to the viewer (see Column 9, Lines 47-59) and do not receive specific messages to request playback.
